MESSAGE FROM THE CONFERENCE CHAIRPERSON

Dear Friends and Colleagues,

Following the success of the 5th edition of the "UAE International Conference on Antimicrobial Resistance" and on behalf of the of the National Committee of AMR in the UAE, it was an honor and a privilege to have organized the "**6th UAE International Conference on Antimicrobial Resistance (ICAMR 2023)**", which was held on **17 & 18 March 2023** in **Jumeirah Emirates Towers**, **Dubai**, **UAE**.

We were fortunate to have an outstanding group of high-profile speakers and world leading scientists and clinicians from across the globe who covered a wide range of exciting topics within the field of Antimicrobial Resistance and all related fields; attracting a high number of delegates who greatly benefited from the latest research and up-to-date information discussed at the meeting.

The conference also included various informative learning platforms, panel discussions, refresher courses/workshops and provided an educational program that allowed professionals from academia and the industry to be updated with the latest research and rapid developments occurring in the field to improve the standards of care for patients in the UAE.

This event has provided an exceptional opportunity for attendees to share and acquire knowledge and experience on a wide spectrum of topics that are related to microbiology, infectious disease, infection control, and antimicrobial stewardship in addition to an opportunity to meet and rub shoulders with the experts and innovative educators in the field. We would like to express our sincere appreciation to all participants, sponsors, exhibitors, supporting organizations and committee members who made this conference a success.

Dr. Najiba M Abdulrazzaq Consultant Internist Head of Medical Dept. Al Kuwait Hospital Dubai Head of Central IPC Committee, MOHAP National AMR Committee Co-Chair Dubai, UAE

PROGRAM HIGHLIGHTS

The conference concluded with participation from **18** Countries and a total of **584** Attendees registered to the conference. The scientific program content offered **8** Sessions, **30** Lecture Topics, **6** Industry Symposia, **3** Scientific Workshops and **2** Industry Workshops during the **2-day** program given by **41** Faculty and Committee Members

The conference envisioned the following benefits for the participants through this program:

- Earn 18.5 CPD credit points by the Dubai Health Authority (DHA)
- Earn 14.75 CPD credit hours by the Ministry of Health and Prevention (MOHAP)
- Meet & learn from an outstanding group of high-profile international speakers covering a wide range of exciting topics in the latest researches & updates on rapid developments occurring in the field of Antimicrobial Resistance.
- Enhance your knowledge on the latest & up-to-date technologies in the field of Antimicrobial Resistance.
- Network, meet and build relationships with your peers in the field of Antimicrobial Resistance.
- Participate in various comprehensive informative session including panel discussion. The conference also received support and collaboration from 13 companies who sponsored and exhibited during the conference as well as received 6 endorsement from societies and associations.

CONFERENCE INAUGURATION & OPENING CEREMONY

APIC

Dr. Hussain Abdulrahman Al Rand Assistant Undersecretary (Public Health) Chairman of the National Committee for the implementation of provision of the International Health Regulations and Prevention of Pandemics Ministry of Health and Prevention UAE

The Opening Ceremony of the 6th UAE International Conference on Antimicrobial **Resistance (ICAMR 2023)** began with the United Arab Emirates National Anthem followed by the Holy Quran Recitation. The Inaugural Speech was then delivered by the Guest of Honor, His Excellency Dr. Hussain Abdul Rahman Al Rand, Assistant Undersecretary for Health Centers and Clinics, Ministry of Health & Prevention, United Arab Emirates. The guest of honor emphasized on the importance of treating antimicrobial resistance as one of the ten major global threats to public health facing humanity, as announced by the World Health Organization.

The guest also announced the Ministry of Health and Prevention's development of a national plan based on scientific foundations to reduce antimicrobial resistance, based on the concept of "one health", which is an approach based on the interdependence between human health, animal health and the environment.

Lastly, the ceremony concluded with a welcoming speech by the Chairman,

Dr. Najiba M Abdulrazzaq Consultant Internist Head of Medical Dept. Al Kuwait Hospital Dubai Head of Central IPC Committee, MOHAP National AMR Committee Co-Chair Dubai, UAE

of the resist

CONFERENCE VENUE

The conference was held in Jumeirah Emirates Towers Hotel, Dubai, UAE

The Emirates Towers complex is located on Sheikh Zayed Road and serves as a direct backdrop to the Museum of the Future and is a symbol of the city of Dubai The two Emirates Towers Complex skyscrapers that rise 309 and 354.6 meters respectively are located between 23 ° and 47 ° tallest buildings in the world. Until the construction of Burj Khalifa were the tallest buildings Dubai. Despite the passage of time Emirates Towers remains one of the most admired profiles of the city skyline.

FACULTY DINNER

The faculty dinner of the ICAMR 2023 was held on the evening of the 17th of March in NINIVE.

NINIVE is located at the heart of Jumeirah Emirates Towers with a view of the twin towers from either side. The restaurant is suspended, as though floating, in the heart of a sweltering city district. NINIVE is designed as a contemporary urban Majlis between a garden and a caravanserai.

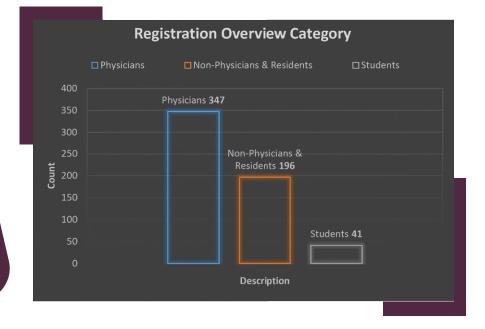

The dinner was attended by faculty members who have enjoyed the exquisite menu and live music ambiance the restaurant had to offer.
